

# Basic Beats 2

Play this page in a few different ways:

1. Learn these bars on their own.
2. Learn to play each bar repetitively.
3. Go through the whole page playing each bar twice then moving straight to the next bar.
4. Play the whole page straight through non-stop with no repeats.

A different feel is achieved with moving your main snare to the third beat of the bar.

ALSO.....Play Bars 11-12 & 13-14 together as a 2-bar groove.
